This week we have been learning...

This week we have been learning about planting seeds.

We are currently investigating whether beans can grow without soil and we will continue to watch these carefully. We wrote instructions about how we did this and went for a plant hunt on the field. We have also played a memory game to practice our concentration skills and made some funny cress heads.

How you can help at home – encourage your child to talk about changes they notice such as new plants in the garden, the blossom on the trees etc.

We had another Skype call with Farmer Ryan. This week he showed us some plants on the farm, how the cows were moved from the shed to the field and some of the equipment he will be using next week when planting maize.

Can you help?

We love bits and bobs for junk modelling and any catalogues/ appropriate magazines to cut things out too if you could bring anything like this in we would be very grateful.

Phonics:

Encourage your child to practice writing simple sentences – remembering capital, letters, finger spaces and full stops!

Farm trip: Please remember to bring in the slip for our farm trip.

Home learning this week: Cut and order the numbers in your book.

Thought for the week.

'The seeds of thought that we plant today create the garden that we harvest tomorrow' - *Unknown*

Star of the week goes to...

Laylalilly : Discovery Class

For trying to be independent and listening to adults.

Amelia. W : Apollo Class

For improving her attitude towards her learning.

Congratulations!
