

Year 4 Ambrosia Newsletter

Friday 28th September, 2018

This week we have been learning...

This week, we have been uncovering the secret code in Operation Gadgetman. From this, we imagined how Gadgetman would be feeling and wrote a diary entry from his point of view. We included fronted adverbials too. We are now looking at the features of formal letters.

In Maths, we have been adding and subtracting 1,000 to a number and looked carefully at which digits changed. We have plotted numbers on number lines, up to 10,000 and have compared these numbers. We have also continued to try Times Table Rockstars.

We have finally looked at the eggs that we left in different liquids. There were a few surprises. The eggs left in fruit juice (which we thought was a healthier option) decayed the most. The fizzy drinks all caused decay-except the fizzy water. We presented our findings as groups to share what this meant for us and the drinks we consume. We decided it was very important to brush our teeth.

Home Learning this week:

Reading with your child.

Times table of the week-7s.

Spellings will be given out on Mondays to be learned for the following Monday. We are still accessing Times Table Rockstars as part of a trial. The log in details have been given out. Please contact me if you need these again. Our trial ends on the 16th October.

Thank you for sharing the information about family links. They are plotted on a map in the classroom. We have links all over the world!

Thought for the week:

Star of the week goes to...

Kai

For excellent effort with his written work in topic lessons.

Congratulations!
