

# Year 4 Ambrosia Newsletter

Friday 9th November, 2018

**This week we have been learning our new topic called, 'Science and Saving the World.'**

In maths, we have been using the column method to subtract 4-digit numbers and have also been learning how to exchange when there isn't enough to subtract.

In English, we started our new class novel-The Iron Man by Ted Hughes. We have been focusing on the choice of vocabulary used for description.

To begin our unit linked to 'How the World works' we have looked at the natural world using the art of Andy Goldsworthy. We designed our own pieces of art using what we found in the nature garden and field. We have also investigated the states of matter and acted out the water cycle in PE.

Towards the end of the term, we will be participating in a competition to create our own invention. To be able to make models of our inventions, we will need lots of recyclable materials such as cereal boxes and cardboard tubes. We will be grateful for any donations.

## **Home Learning this week:**

Reading with your child.

Times table of the week-7s.

Spellings will be given out on Mondays to be learned for the following Monday.

Read Theory Logins and information will be shared with you via a separate parent letter.

Maths homework to be completed for Monday 12th November.

## **Thought for the week:**

The MORE  
that you read,  
the MORE things  
you will know.  
The MORE that you  
Learn,  
the MORE places you'll go.

Star of the week goes to...

**Hope E**

**For her perseverance with exchange in subtraction.**

# Congratulations!
