

Year 4 Ambrosia Newsletter

Friday 16th November, 2018

This week we have continued our inquiry into how science has helped to change the world.

In maths, we have continued to use column methods to add and subtract 4-digit numbers. We have also explored efficient methods for subtraction and how to estimate an answer.

In English, we have written recounts of the capture of the Iron Man from Hogarth's point of view.

During our inquiry lessons, we have looked at the artwork of Georgia O'Keeffe and mixed colours to make tints and shades. We have researched different scientists who have made a difference to life in the past and found out about lots of different scientists, such as Edward Jenner who invented vaccinations and Joseph Priestley who discovered carbon dioxide (which is used in fire extinguishers).

On Friday, Warburtons will be visiting for a sandwich workshop.

Thank you for your donations of recyclable materials. Please do continue to send in materials that we can use for our inventions.

GOOD NEWS! Timetable Rockstars is back!

Home Learning this week:

Reading with your child.
Read Theory.
Times Table Rockstars

Spellings will be given out on Mondays to be learned for the following Monday.

English Homework to be completed for Monday 19th November, 2018.

Thought for the week:

**You can find magic
wherever you look.
Sit back and relax,
all you need is a book.
Dr. Seuss**

Star of the week goes to...

Jacob Whitehead

for a beautiful piece of descriptive writing.

Congratulations!
