

# Year 4 Ambrosia Newsletter

Friday 7th December,, 2018

**This week we have continued our inquiry into how science has helped to change the world.**

In maths, we have been multiplying and dividing four digit numbers by 10 and 100. We have also been solving problems using this knowledge.

In English, we have written, edited and published our explanations, ready to show at our Invention Convention on Thursday.

In science, we were investigating the freezing/melting point of materials. Our experiments were carried out on chocolate-which was very popular!

On Monday, three of Ambrosia class took their invention idea to the final at Strood Academy. Although they didn't win the overall prize, they came back with medals and goody bags. They also managed to win the 'build a tower' competition whilst there! Well done!

## **Home Learning this week:**

Reading your class book.  
Read Theory.  
Times Table Rockstars.

Spellings will be given out on Mondays to be learned for the following Monday. This week's pattern is -ough

This week's homework is a task about causal conjunctions to be handed in by Tuesday 10th December.

## **Thought for the week:**

Star of the week goes to...

**Isla** - for applying all the featured to a great explanation.

# Congratulations!
